

A screenshot of a Microsoft Access database table. The table has two columns: 'pname' and 'sname'. The 'pname' column contains part names: 'widget', 'welder', 'bolt', 'nut', 'screw', 'gear', and 'damp'. The 'sname' column contains supplier names: 'acme widget suppliers', 'bolt and nut co', 'global inc', 'steel works', 'bolt and nut co', 'precision tools ltd', and 'red ltd'. The row for 'nut' is highlighted with a light blue background.

	pname	sname
▶	widget	acme widget suppliers
	welder	bolt and nut co
	bolt	global inc
	nut	steel works
	screw	bolt and nut co
	gear	precision tools ltd
	damp	red ltd
